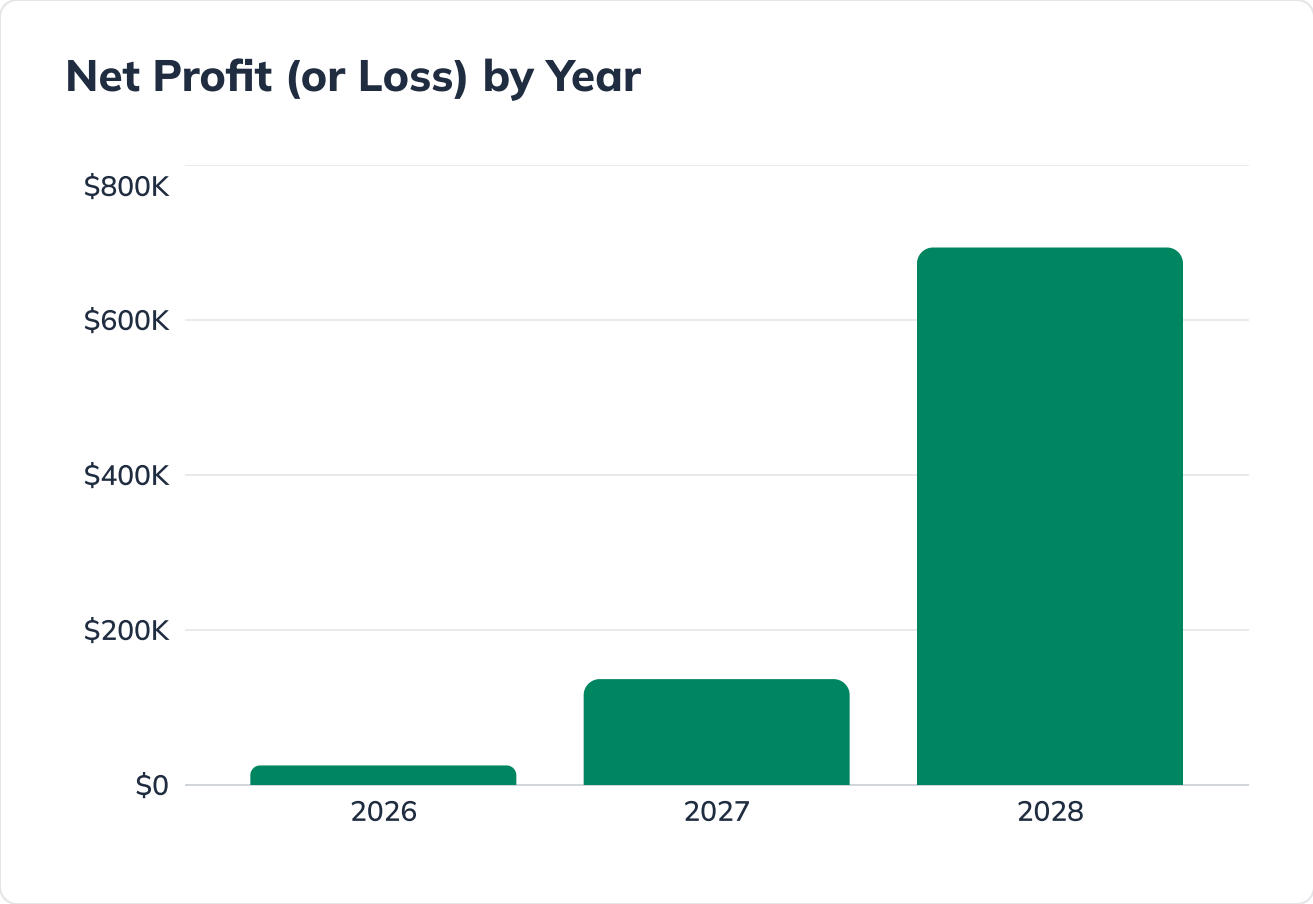
Profitability



Use of Funds

- Four founders' salaries: At first, we won't have enough cashflow to pay ourselves. Once cashflow grows strong enough, we will be able to start paying ourselves.
- Product Improvement: We will be able to create an MVP ourselves for little cost. Once our business becomes profitable enough, we will invest money into improving our website and algorithm to produce a cutting-edge product.
- Marketing: We will increase the marketing budget each year as far as our funds allow to create a recognizable brand.

- Networking: We will create a networking division to get our company into conferences at universities across the country.
